I put in renewal requests for both of them through the end of June. I'll let you know if there are any problems.

Good Morning, Sabrina:

I'd like to request to renew this book, which is due on 5/30/13. Also, is it possible to renew for a second time the other book you got for me (Patterns in Freshwater Fish Ecology)?
If so, I'd like to do that.

Thanks for your help.
Eric

I wanted to apologize that this book hasn't come in yet. It was supposedly shipped from the first library I requested it from at the beginning of the month but we still haven't received it. I just let them know and put a new request in with different libraries. Once again, I'll bring it by as soon as it comes in.

Sabrina
